Re: Taco Bell
Einstein Bros. Bagels
Starbucks Coffee
Subway

Jeff,

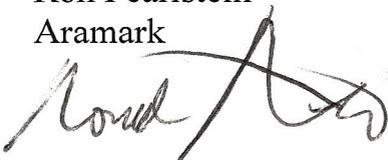

Please accept this letter as a reference for the above four projects you have completed for Aramark. Taco Bell, Einstein and Subway were on a super tight schedule, which you completed all within six and a half weeks, even working Christmas Day and New Year's Eve. Your selection of subcontractors, in addition to your scheduling, was right on target. These were complicated projects, and among the fastest we have ever done. You showed honest, hard work and quality can complete any project.

Starbucks was also a difficult job being inside an existing University library. But once again you and your staff pulled it off.

Please feel free to use me as a personal reference for any future work.

Once again, thank you.

Ron Pearlstein
Aramark

Re: River Club Renovations

Jeff,

I just wanted to write you a letter to commend you and your staff on a job well done. The River Club was a huge success with the members. We are very pleased with your suggestion to use the stone veneer at the bar in lieu of the stained wood. Everybody is commenting on how good it looks. The project was completed at least 30 days ahead of schedule. We are very pleased with your company and hope to be working with you in the future.

Thanks again,

Mike Llewellyn
Club Manager
